### Clovis Woman's

#### Club Protests.

Believing that the women of a community are largely responsible for the moral tone of that community, the Clovis Woman's Club enters public protest against exhibitions of the class that has been of such notoriety

as that of recent date.

We protest against our city becoming a "center for Boxing Bouts and Prize Fights" for various reasons. The spirit of gambling is engendered, physical prowess elevated beyond intellectual and moral growth, and the general influence detrimental to the young.

Statistics of the present day show an increase of crime among boys and to safeguard those of our own city, we appeal to the best citizenship to seriously consider the matter. We also appeal to the civic pride of our citizens to help make our record clean from all that may contaminate.
